It's likely he missed her with the first shot, the one that hit the telephone, and didn't succeed in killing her right away with the other four, but he probably thought he was ded, and, anyhow, he had to get out before Mimi arrived, so he dropped the piece of Wynant's chain that he had brought along as a clincher — and his having saved that for three months makes it look as if he'd intended killing her from the beginning — and scoots on over to the engineer Hermann's office, where he takes advantage of the breaks and fixes himself up with an alibi.

He took notice of a general tradition, 'that Yahoos had not been always in their country; but that many ages ago, two of these brutes appeared together upon a mountain, whether produced by the heat of the sun upon corrupted mud and slime, or from the ooze and froth of the sea, was never known; that these Yahoos engendered, and their brood, in a short time, grew so numerous as to overrun and infest the whole nation; that the Houyhnhnms, to get rid of this evil, made a general hunting, and at last enclosed the whole herd; and destroying the elder, every Houyhnhnm kept two young ones in a kennel, and brought them to such a degree of tameness, as an animal, so savage by nature, can be capable of acquiring, using them for draught and carriage: that there seemed to be much truth in this tradition, and that those creatures could not be yinhnamshy (or aborigines of the land), because of the violent hatred the Houyhnhnms, as well as all other animals, bore them, which, although their evil disposition sufficiently deserved, could never have arrived at so high a degree if they had been aborigines, or else they would have long since been rooted out; that the inhabitants, taking a fancy to use the service of the Yahoos, had, very imprudently, neglected to cultivate the breed of asses, which are a comely animal, easily kept, more tame and orderly, without any offensive smell, strong enough for labour, although they yield to the other in agility of body; and if their braying be no agreeable sound, it is far preferable to the horrible howlings of the Yahoos.
